

9/25/97

To: Delta Protection Commission

From: Margit Aramburu, Executive Director

Subject: Proposed Addition to Draft Letter to CALFED re: Draft ERPP

Add to the end of page seven of the staff report, page one of the draft letter, paragraph two:

This appears to be in violation of one of the six CALFED solution principles which states "No Significant Redirected Impacts: A solution will not solve problems in the Bay-Delta system by redirecting significant negative impacts, when viewed in its entirety, in the Bay-Delta or other regions of California."
